## Aerospace COVID-19 Taskforce (ACT)

With the escalation of the coronavirus situation to a global pandemic and its impact on the aviation and aerospace sectors, AAIS has established the Aerospace COVID-19 Taskforce (ACT) to gather feedback, spearhead initiatives, and organise responses to facilitate the Singapore aerospace community through these challenging times. The taskforce is chaired by AAIS Panel of Experts member, Mr Robin Thevathasan. For feedback, please [contact the taskforce](#).

## Survey: Business Impact of COVID-19

**The COVID-19 pandemic has confronted aerospace executives and managers with a range of decisions never before contemplated. In this rapidly-moving environment, we seek your inputs on your business and workplace concerns and ways we can collectively address these.**

**Please take a few minutes to complete our COVID-19 survey.**

# COVID-19 Industry Sharing Sessions

The unprecedented and global scale of the COVID-19 pandemic has impacted the aviation and air transport industries in a big way. With no clear timeline for recovery, businesses should be prepared for a long period and be agile to cope with rapidly changing scenarios. Join our industry discussion share your experience and responses to the outbreak, as well as your vision and actions to keep your business and the Singapore aerospace sector going.

- Session 1: Aerospace Manufacturing sector (Tue 31 Mar, 12noon - 1pm)
- Session 2: Maintenance, Repair & Overhaul sector (Wed 1 Apr, 12noon - 1pm)
- Session 3: Supply Chain & Logistics sector (Thu 2 Apr, 12noon - 1pm)

## Comply with Safe Distancing Measures

The Ministry of Manpower (MOM) has commenced enforcement operation on workplaces' compliance with Government advisories on safe distancing measures to reduce the risk of local transmission of COVID-19. We urge members to comply with the guidelines issued by MOM, including the following:

- All employers should place their employees on *work from home* arrangements wherever possible, especially for vulnerable employees (e.g. older employees, pregnant employees, and employees with pre-existing medical conditions).
- For job roles or functions where it is not feasible for the employee to work from home, employers should:
  - Provide wider physical spacing (at least 1 metre apart) for workstations and seats in meeting rooms, pantries, rest areas and other congregation points
  - Reduce duration and proximity of physical interactions;
  - Stagger working hours;
  - Defer non-critical work events and scale down critical work events; and
  - Implement or enhance shift or split team arrangements.

For more information, please refer to the following Press Release:

# Resources for the Aerospace Community

The fast-changing situation has brought about a flood of information for individuals and businesses to sieve through. We have collated and curated useful links and resources that can provide answers to common questions pertaining to businesses and the workforce in Singapore; and other materials for both individuals and businesses affected by COVID-19. The ACT will continue to monitor this significant threat, and update the contents and resources as the outbreak evolves in the coming days, weeks, and months. We invite you to share this page and its resources with other businesses that may be impacted by COVID-19.
